DETAILED ACTION

Allowable Subject Matter

1. Claims 7-10 allowed.
2. The following is an examiner's statement of reasons for allowance: The present invention is directed towards a DVD-Audio which includes a data zone for storing data to be reproduced and an information zone for storing information on the data to be reproduced. Independent claims identify the uniquely distinct features, "each having an audio coding mode, a first, second or third quantization bit number corresponding to the data to be reproduced, a first, second, third, fourth, fifth or sixth sampling frequency corresponding to the data to be reproduced, and decoding algorithm information relating to a number of audio channels of the data to be reproduced, and each of said AOBs includes a plurality of audio packs recorded with audio data corresponding to the decoding algorithm stored in the audio stream attribute." The closest prior art fails to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
